BOEING CARGO FIRE BOTTLE RETROFIT

Meggitt is offering a retrofit opportunity on an attrition basis upon the removal of each Kidde Fire Bottle.

PN: 34600010-28

When you remove the Kidde Fire Bottle for maintenance, we will provide a new spare replacement from stock in exchange.

Our cargo fire bottle is manufactured as a secondary production option as Customer Furnished Material for Boeing.

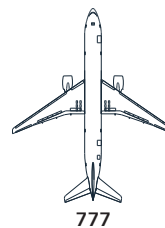

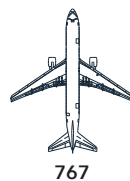

PART NUMBER DETAIL 01

Improving reliability with a new design

- Boeing Specification: S453T201-28
- Meggitt PN: 34600010-28
- Kidde PNs: 473957 (-7,-6,-5,-4,-3,-2,-1)

APPLICATIONS 02

- Boeing 737, 747, 757, 767, 777

DESCRIPTION 02

- **Interchangability:** Direct replacement for Kidde Cargo Fire Bottle.
- **Weight:** 2.39 lbs lighter than Kidde Product.
- **Warranty:** 4 Years
- **Provision of New Spares:** Fire bottles must be removed every 5 years for hydro-static test which typically leads to an overhaul. All fire bottles can only be cut open & re-welded 4 – 6 times before weldment is out of CMM limits (Scrap).
