

BOEING B757

Keeping our customers Airborne for longer

Braking Systems

- Main Wheel
- Brake Unit
- Nose Wheel

Avionics & Cockpit

- HE Igniter

Flow Control

- Thermostatic Oil Bypass Valve
- HP Handling Bleed Valve
- IP Solenoid Valve
- HP3 Solenoid Valve
- IP Bleed Valve

Thermal Solutions

- Combined Fuel Cooled Oil Cooler and Fuel Filter Housing
- Fuel/Oil Heat Exchanger

Sensing & Control

- Engine Vibration Accelerometer
- Accelerometer Assembly
- Engine Vibration Monitor Unit
- Junction Box
- Cable Assembly
- Piezo-Electric Accelerometer
- Microtrac II Engine Vibration Monitor
- Microtrac II Digital Tracking Filter
- Overheat Detector Switch
- Pressure Transmitter
- Tachometer Generator HP
- Pressure Switch

Fire & Safety

- Fire/Overheat Detector Assembly
- Fire Extinguisher

Flow Control

- IDG Cooling Control Ram
- Solenoid Valve IDG Cooling Air Flow Control
- IP Solenoid Valve
- Motor Actuated Gate Shutoff Valve
- Motor Actuated Rotary Shutoff and Selector Valve
- Turbine Vane Cooling Air Valve
- 14th Stage Bleed Converter Valve
- Flow Control Valve
- Aeromatic Valve
