## Enabling the Extraordinary

To Fly To Power To Live

[www.meggitt.com](http://www.meggitt.com)

We deliver solutions for the most challenging environments; where teamwork and collaboration matters. We enhance lives and enable safe, cost-effective flight, power and defence systems. Customers all over the world rely on our technology, products and services. 160 years of expertise and innovation inspires everything we do.

This is how we work.

And this is who we are.

**Tim Byrne**

**Materials Controller – 13 years' service**

Quality and traceability is my speciality, but getting the right parts, in the right place at the right time takes teamwork.

There is a real sense of collaboration here. You're not just liaising with different experts, you're learning from them.

**Toby Hutton**

**Carbon Brake Specialist – 20 years' service**

We're working together to deliver even more for our customers.

People here genuinely care about what they do. I'm looking forward to the next stage of Meggitt's journey.

# TEAMWORK

**Naytan Fijiwala**  
**Pricing Analyst – 6 months' service**

The best part of my job is knowing that I have a direct impact on performance, both within and outside the business.

To stay competitive and accessible, you've got to work together. It's why I already feel part of the team.

**Nick Thatcher**  
**17 years' service**

I started out as an apprentice and I've been lucky enough to have placements in several departments, which has helped me develop both professionally and academically.

I love working in aerospace. Talking to customers and suppliers around the world means that I'm constantly working with new processes and learning how to implement best practice examples.

**Paul Oakes**  
**Senior Chemist – 17 years' service**

I'm surrounded by so many skilled professionals. You can hone your skills and you feel valued. That's a huge part of working here.

We're always branching out to cover more areas. So I'm continually looking forward to being challenged and doing new things.

...and close

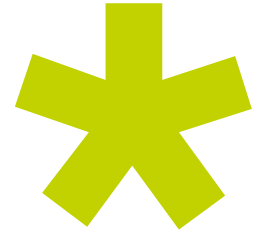

# ABSORPTION

**Jennifer Clements**  
**Aftermarket Director – 17 years' service**

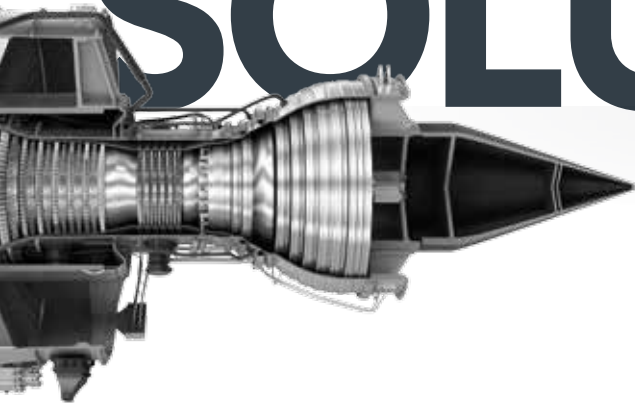

Providing tailor-made aftercare solutions gives you a real insight into the industry. We're constantly learning about customers' diverse needs, wherever they operate

Collaborating with clients to come up with speedy, cost-effective solutions is one of the best parts of my job.

...we're finding better

# SOLUTIONS

**Lauren Bradley**  
**Customer & Quality Support**  
**– 15 months' service**

I'm focused on making everything move as smoothly as possible for our customers, and I love the variety that entails.

Each day sees me working with new people and challenges. I've found there's always someone here to support and advise.

**Mark Reid**  
**Repair Assistant – 5 years' service**

We've a strong reputation for quality. I take pride in delivering a product that minimises airline downtime and ensures safety.

It's great working together to solve complex problems, and to know your work keeps millions of people flying.

**Marc Dickinson**  
**Quality Engineer – 6 years' service**

I've been interested in aerospace since I was a boy. Now I'm part of the industry, and the passion is as strong as ever.

There are so many talented people with so many different skills. We're really changing things for the better. It's a great time to be here.

# RAORDINARY

**Colin Coughlan**  
**Shipping and Receiving**  
**Co-ordinator – 17 years' service**

For me, it's about liaising closely with others to meet those all-important deadlines and quality expectations.

Everything we ship is monitored throughout the manufacturing process. I love that everyone in the team plays a part.
