

Investing for growth

Europe, Ansty Park, 2019
Centre of excellence for next generation thermal solutions, braking and control systems.

Americas, Mexico, 2018
50% increase in manufacturing capacity for advanced polymers and composites.

Americas, San Diego, 2017
120,000 sq. ft. facility for advanced polymers and composites.

Asia, Vietnam, 2017
100% increase in manufacturing capacity for monitoring and sensing systems.

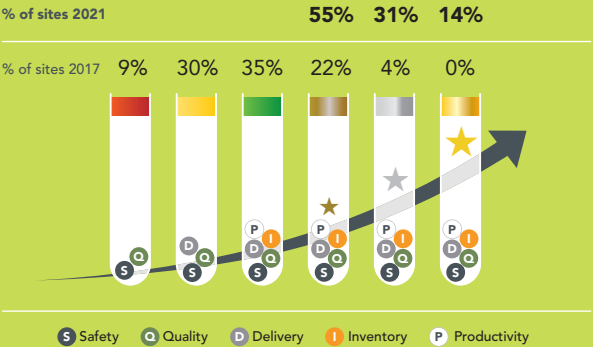

Americas, Danville, 2018
60% increase in manufacturing capacity for wheels and brakes.

Americas, Miami, 2018
70% expansion, creation of East Coast parts hub for Customer Services & Support.

Meggitt Production System

Our best in class continuous improvement programme, delivering step change improvements in operational performance.

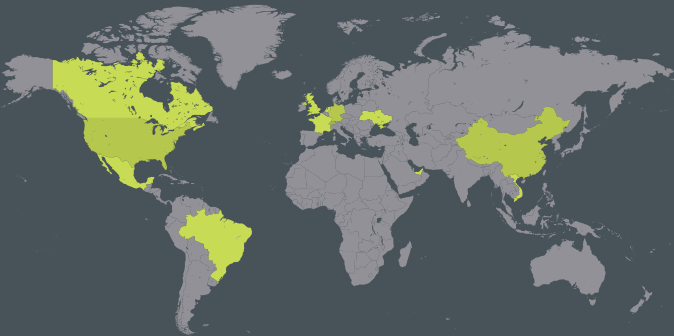

MEGGITT

Global operations, local support

Putting our customers first

Dedicated teams serving OEM, airlines and military customers worldwide.

11,200 Employees
5 Continents
16 Countries
46 Facilities

Efficient, Reliable, Safe, Innovative and Smart in the Extreme

Innovative technologies for airframe and engine systems

MEGGITT

Nose to tail **Performance, Reliability** and **Safety**

Working in partnership with our customers to provide full lifecycle solutions.

Our SMART Support care packages allow you to select from new parts, advanced repairs, exchange pool, technology upgrades and used serviceable material. In addition, we are constantly building our database on service intervals and performance of all our products and solutions to enable effective health monitoring and accurate predictive maintenance scheduling, ensuring we keep all our customers airborne for longer.

Tailor made solutions to meet global aftermarket needs.

Delivering next generation technology

- World's first all-electric brake
- Optical sensing for monitoring and fire detection
- Smart thermal solutions for increased efficiency
- Advanced composites for engine and airframe
- Wireless tyre pressure monitoring
- Fuel measurement systems: Time Domain Reflectometry (TDR)

Flexible Aftermarket Care

Maximising **Efficiency** for Customers
