

FACT SHEET

MEGGITT AT A GLANCE

01 Group overview

Meggitt's antecedents can be traced back to the mid-19th century with innovations such as early aviation instruments for hot air balloons including the world's first altimeter. Today it is known for designing and manufacturing high performance components and sub-systems for aerospace and defence markets and applies its core sensing and control technologies to hydro, steam and

gas turbomachinery generators, oil and gas applications and the medical, mainstream industrial, test engineering and transportation sectors.

With innovation at the heart of what we do, we've been enabling the extraordinary for over 160 years and continue to redefine our world through pioneering, sustainable technology for the most extreme environments.

Organisation structure

The Group employs over 9,000 people across 39 operating facilities.

We are organised into **four customer-focused divisions**.

Airframe Systems Providing core components for original equipment airframe manufacturers across multiple platforms, and specialising in products designed to operate in demanding conditions across a diverse range of applications.

Engine Systems A leading supplier of core technologies for engine manufacturers across a broad range of competencies including thermal management, engine sensing and advanced composites.

Energy & Equipment Providing innovative aero-derivative technologies with applications across the energy and defence sectors.

Services & Support Providing through-life MRO and spares services across our extensive installed base.

02 Our strategy and vision

Working closely with our customers, we deliver technologically differentiated systems and products with high certification requirements in aerospace, defence and selected energy markets.

Through focusing on engineering and operational excellence, we build

broad installed bases of equipment for which we provide support and services throughout their lifecycle.

Our ambitious and diverse teams act with integrity to create superior and sustainable value for all of our stakeholders.

To Fly

Expertise relied upon by customers to enable safe, sustainable and cost-effective flight.

To Power

Products and services that enable Customers to reliably operate critical infrastructure without disruption.

To Live

Innovative technologies which enhance people's lives and make the world more secure.

FACT SHEET

03 Our values

Collaborating and building trusted global relationships through
TEAMWORK

Conducting ourselves with
INTEGRITY

Striving for operational
EXCELLENCE

04 Financial highlights

Quoted on the London Stock Exchange and a constituent of the FTSE 100 index, our market capitalisation in February 2020 was just over £4.2 billion.

In the year ending December 31, 2019, revenue was £2,276 million yielding an

underlying profit before tax of £403 million.

Research and development expenditure in 2019 was £118.5m million, representing 5.2% of revenue. Over two-thirds of our innovation budget is invested in technologies for sustainable aviation.

05 Strategy

In 2020, our focus is to build on the achievements of last year in our four strategic priority areas.

Strategic Portfolio: Investing in attractive growth opportunities in our core business; targeting value enhancing acquisitions and selling non-core businesses.

Customers: Delivery of high-quality, on-time products services and support to increase Customer satisfaction while maximising the through-life value of our products, which

are installed on over 73,000 aircraft.

Competitiveness: Investing in our people, property and plant to make operational performance a key competitive strength. Reducing fragmentation to increase economies of scale.

Culture: Build and nurture a high performance culture, where high levels of employee engagement enable us to accelerate strategy execution.

06 2019 sales across market segments, customers and countries

Major customers include AAR Corp, Airbus, Boeing, Bombardier, Delta Air Lines, Embraer, General Electric, General Dynamics, Honeywell, Lockheed Martin, Lufthansa, Raytheon, Rolls-Royce, Safran, Siemens, Textron, United Technologies and the US Government

08 Investments

January 2020	Investment in HiETA Technologies Ltd, a UK company with world-leading capabilities in metal additive manufacturing technology.
--------------	--

09 Acquisitions

March 2017	Elite Aerospace, a leader in the test, repair and overhaul of heat transfer, pneumatic, hydraulic and avionic components for commercial and military aircraft
December 2015	The composites division of EDAC, a leader in composites manufacturing and component design engineering for aircraft engines, aerostructures and defence applications
November 2015	The advanced composites businesses of Cobham PLC, a leading supplier of extreme environment radomes, engine components and complex secondary structures
December 2014	PECC (Precision Engine Controls Corporation), a leading supplier of small-frame gas turbine actuation systems and fuel metering valves used in oil and gas and power generation
September 2013	Piezotech LLC, a pioneer in high performance piezo-ceramic technology
April 2011	Pacific Scientific Aerospace, a leading supplier of equipment for critical military systems, commercial transport aircraft, business jets and general aviation
January 2008	Ferropem Piezoceramics A/S, the Danish producer of advanced piezo-electric ceramic materials for sensing products
July 2007	K&F Industries Holdings Inc, a supplier of wheels, brakes, brake control systems, flexible bladder fuel tanks, helicopter interiors, ice protection and sealants
October 2006	Firearms Training Systems, a provider of simulation products for firearms training
September 2006	Keith Products, a supplier of compact air conditioning systems for business jets and general aviation aircraft

FACT SHEET

August 2006	Radatec, a US start-up with breakthrough turbine tip clearance measurement technology
November 2005	ECET, an ignition systems and airborne electronic equipment specialist
November 2005	Sensorex, a sensors and electronics specialist
July 2005	Avery-Hardoll, a manufacturer of aerospace ground refuelling equipment
December 2004	Wilcoxon Research, a specialist sensors manufacturer
December 2004	Schreiner Canada, unmanned aerial and marine targetry
August 2004	The design and manufacturing division of Dunlop Standard Aerospace. Dunlop Aerospace Braking Systems and related aftermarket services (Dunlop Aerospace Services) form a new, stand-alone operating unit. Dunlop Ice Protection & Composites, Dunlop Precision Rubber merge with Bestobell Aviation to become Dunlop Bestobell (now Meggitt Polymer Solutions), Dunlop Equipment, Serck Aviation and Stewart Warner South Wind are integrated into Meggitt's then aerospace equipment division
December 2003	Western Design, a designer and manufacturer of automated ammunition-handling equipment and environmental control systems
December 2003	Howden Airdynamics, a designer and manufacturer of pumps, fans and compressors for ground, naval and aircraft applications
March 2003	Caswell International, a supplier of ground-based live fire training equipment systems
January 2003	General Electric turbine clearance control valve product line
November 2002	Lodge (ex-Smith's Group plc) temperature and speed sensors
July 2002	BAE Systems' military air data and data acquisition computers
April 2002	Kaman Aerospace Corporation high integrity radio frequency cables

10 Disposals

July 2020	Meggitt Training Systems, Inc. and related subsidiaries in Australia, Canada and the Netherlands (live-fire and virtual training systems).
August 2019	MEMS facility in Sunnyvale, California, and the Endevco non-aerospace test and measurement sensor product lines from our Orange County, California, facility.
April 2019	Meggitt (France) SAS (ignition systems, indicators and sensors for aerospace markets)
April 2018	Precision Micro (specialists in photo etching for automotive and medical sectors)
March 2018	Linear Motion LLC (ball screws for aerospace, defence, medical and satellite applications)
January 2018	Aviation Mobility (accessibility equipment for aviation industry)

02 Tony Wood (Chief Executive)	07 Alison Goligher OBE*
03 Guy Berruyer*	08 Guy Hachey*
04 Louisa Burdett (Chief Financial Officer)	09 Caroline Silver*
05 Colin Day*	* Non-executive

12 History

1947	Founded in Halifax as a lathe manufacturer.
1947	Became a quoted public company.
1964	Acquired Meggitt Engineering Ltd, a general light engineering company based in Bournemouth.
1984	Management buy-in to build a geographically diverse, international engineering company serving speciality sectors in aerospace, controls, electronics and energy.
1995	Reorganised to focus on core business of aerospace, defence systems and electronics.
1998	Acquired Vibro-Meter, significantly increasing its core capability in engine condition monitoring and diagnostics.
1999	Acquired California-based Whittaker Corporation. Increased Meggitt presence in aftermarket business (repair and overhaul of aircraft components), significantly increasing the volume of business with major aircraft original equipment manufacturers and their customers.
2000-2009	Series of acquisitions and disposals to enhance core businesses and improve the operations mix between the UK and US and civil and military, and original equipment and aftermarket applications including the design and manufacturing division of Dunlop Standard Aerospace and K&F Industries Holdings Inc (see 06 and 07).

FACT SHEET

- 2010 Reorganised under five new divisions focusing on polymers and composites, control systems, aircraft braking systems, sensing systems and other technologically distinct businesses. Business units became facilities reporting to divisional management. Business units in the Meggitt Equipment Group continued to trade independently as part of the new structure and benefit from a range of cross-group programmes and functions.
- 2011 Acquired the Pacific Scientific division of Danaher bringing new capabilities in power and motion and a strong aftermarket model.
- 2015 Acquired the Advanced Composites businesses of Cobham PLC and EDAC, complementing and enhancing our capabilities in military and commercial airframe and engine composites.
- 2019 Reorganised our five capability-focused divisions into four new customer-aligned divisions specialising in Airframe Systems, Engine Systems, Energy & Equipment and Services & Support.
