Meggitt OEM CFM56 Component Advance Exchanges

Valve
Heat Exchanger
& Detector

01 Advance Exchange Service

Meggitt's CFM56 Rotable Advance Exchange Service is available to support our customers on an availability basis as an alternative to high value or long lead time items.

This enables our customers to optimize the availability of parts to support their aircraft whilst reducing their own inventory holding.

Meggitt's Advance Exchange Offering enables customers to benefit from the availability of a part within 48 hours of an order placement, whilst the customers unserviceable component is removed from the aircraft, and subsequently returned to Meggitt within 14 days.

Flat Rate Exchanges

This Advance Exchange Option is offered on a Flat Rate Exchange Basis. The pricing options for the Flat Rate Exchange can be found on the next page.

For cost-plus exchanges, or for a longer term or guaranteed access to this availability then please do not hesitate to contact via the details provided herein.

	902020-01	4,500	Includes Single Sensor or Header Replacement
	902862-01	4,500	Includes Single Sensor or Header Replacement

06 Key Terms & Conditions

This availability is offered based on the following salient terms and conditions:

- Incoterms: - FCA (Meggitt facility) shall apply to all outbound deliveries. Inbound products for repair and overhaul to be shipped by Customer DAP (Meggitt Facility). Meggitt reserves the right to determine which repair station will be used, however all will be Meggitt authorised repairs stations which are FAA/EASA/CAAC approved.
- Title and Risk - Title to units returned by Air Arabia shall pass to Meggitt concurrently upon title to the corresponding exchange unit passing to Air Arabia in accordance with Meggitt's Standard Terms of Sale
- Exchange Beyond Economical Repair (BER): - In the case of exchange when the core unit is BER, a replacement surcharge will apply equal to ALP (or USM Alternative), less any exchange fee.
